

Secure Lebanon's Brighter Future

Help us build a Peace Palace to generate coherence in collective consciousness and help bring peace and affluence

Dear friends,

Today, we are launching our campaign for the first ever Maharishi Peace Palace in the Arab region. We hope you will be as encouraged and inspired as we are.

How did we start?

As you know, over twenty years ago, Maharishi began a campaign to build Peace Palaces in every city and every country of the world. This would provide homes for coherence and total knowledge to support the enlightenment of individuals and peace, prosperity, and invincibility for the nation. We have made some significant progress in arranging this for Lebanon.

16,500 square meters of pristine land on the outskirts of the village of Abey, 22Km southeast of Beirut, have been donated for this purpose. The serene surroundings and breathtaking views are ideal.

"The Peace Palaces will provide total knowledge to raise the whole population to enlightenment. They will radiate peace throughout the world in the same way as a lighted lamp radiates light and eliminates darkness."

~ Maharishi speaking at the Global News Conference on 22nd September 2004

What is the plan?

This grand three-story Peace Palace will serve as a beacon of light for Lebanon and the region as a whole.

It has been designed according to Maharishi Sthapatya Veda principles: location, orientation and proportions of the building are in complete harmony with the Laws of Nature. Living and meditating in such a building aligns the individual mind with cosmic intelligence and enlivens the total power of Natural Law increasing coherence and preventing the rise of negativity.

"We choose to fondly call them Peace Palaces – a place where peace will reside in its fully awakened state, in order that no one any more lives in any kind of problem or suffering."

~ Maharishi on 12th January 2004 inaugurating the Year of Peace Palaces

How can you help with the Peace Palace – and Lebanon?

As you know, never has the need for a Peace Palace been felt more acutely than today. The country is facing an economic, social and financial crisis described by the June 1, 2021 World Bank Lebanon Economic Monitor (LEM) as likely to rank in the top 10, possibly top 3, *most severe crises globally* since the mid-nineteenth century — a crisis with the potential to become an existential threat to the nation itself.

In my letter addressed to Lebanese resident meditators and knowing full well the impact the crisis is having on each individual personally, I said that the most precious contribution each one of them could make presently was simply putting all our finest attention on the project and spreading the news to friends and contacts at large — individuals, corporations or foundations. Having attention on the project at the softest level of thinking enlivens the potential for the fulfillment of this most important idea at the level of Pure Consciousness, the level of the Unified Field of all the Laws of Nature, that most primal and powerful level of life from where everything manifests.

*The technique of receiving help from the surroundings is in our attitude of giving.
If we want to receive the maximum at all times, we must have an attitude of giving.
“If you want to receive, you must give” is a Law of Nature.*

~ Maharishi in Science of Being and Art of Living

Around \$4 million are required to complete the project and every drop of contribution, however small, is extremely precious both to donors and to the project as a whole. I am fully aware that most, if not all of you, have suffered from the Lebanese crisis and that most of you are playing a vital role in giving financial support to your family and friends who are in dire need. I am fully aware of the critical importance of such assistance and understand the personal considerations involved.

In addition to these very important individual responsibilities, we have the knowledge and ability, to help change the trends of Lebanon and to find a permanent solution to the significant pressing challenges facing it. Lebanon’s crisis is not of today’s making: something deeper and more fundamental than short term crisis resolutions is required. As Maharaja said in a recent talk to siddhi course participants in Lebanon, this crisis has been in the making for decades if not centuries and the only permanent solution, the only way out, is to deal with it from the level of the Unified Field.

Your contribution to funding the Peace Palace is an important first step towards that, to raise Lebanon permanently to a stress-free level of coherence. We can make Lebanon invincible, impervious to all negative influences, internal or external. This capability is fully validated by hundreds of scientific studies published in leading scientific journals.

All details of the various ways to support the project are available on our website "Maharishi Peace Palace Lebanon" and which I urge you to lookup.
